<b>March 26 Inter City Forum on Social Policy</b>	Kathy Barnhart, Cllr in Beaumont, lead a discussion on the gaps facing quality child care for families in Alberta. There have been changes at the Provincial level which are impacting negatively the access to quality child care particularly in light of the pandemic. Women who are still the primary child care providers have faced significant job loss during this pandemic. As a take away we have invited a senior staff member from government to our next meeting to have a collaborative discussion on the gaps we are experiencing as municipalities.
