12. Information Requests / Notices of Motion / Announcements

Notice of Motion - Councillor Patrick

That Administration incorporate a water station that will serve both people and dogs into the Lions Park capital project.

Information Request - Councillor Clark

Snow and ice control standards require the City to clear sidewalks and pathways when 2-5 cm of snow or ice has accumulated. However, the Community Standards Bylaw permits snow accumulation on residential sidewalks adjacent to private property up to 30 cm, provided the condition is not deemed “dangerous.”

Please provide the following information:

1. What is the rationale for the significant difference between the City’s snow-clearing standard (2-5 cm) and the residential standard permitted under the Community Standards Bylaw?
2. What policy objectives were considered when establishing the current residential threshold and the reliance on the definition of a “dangerous condition”?
3. What snow and ice removal standards apply to residential sidewalks in other municipalities within the

Edmonton metropolitan region?

4. For municipalities that require residents to clear sidewalks, what timelines are provided for compliance following a snowfall event?

5. How is “dangerous condition” interpreted and applied in practice by Peace Officers, and what guidance is provided to ensure consistent enforcement?

6. Does Administration consider the current bylaw sufficiently clear and objective for both residents and enforcement officers?

7. Does the current Community Standards Bylaw support the City’s Flourish objective of “Accessibility and Comfort: Design St. Albert to be accessible and inviting, to everyone in all seasons,” particularly for residents using mobility aids, strollers, wheelchairs, or scooters?

8. Has Administration evaluated whether the lack of a requirement to clear residential sidewalks to pavement creates barriers to year-round pedestrian accessibility?

9. Has Administration considered amendments to the Community Standards Bylaw to introduce clearer, measurable snow-clearing requirements (e.g., accumulation thresholds or timelines) for residential sidewalks to improve consistency, accessibility, and public understanding?

Information Request - Councillor MacKay

Is there an existing Policy or Service Level that addresses clearing snow and ice from the public art at St Albert Place? i.e the Stewart Steinhauer exhibit plus the Legacy of Love and Learning and Hide and Seek. If not, can Administration provide information on what would be the impacts on implementing such a Policy or Service Level.
