Q2 As part of the proposed Historic Conservation Program Policy, the City is considering allocating funding to support a conservation program. Funding would support community heritage awareness, establishing a Heritage Advisory Committee and funding a grant program. Currently the policy proposes \$1 per St. Albert resident per year (currently about \$64,000). Do you support this amount?

1	Businesses should not be mixed with residential. St albert is not downtown edmonton. We need governance that enhances st albert not tries to recreate edmonton.	6/22/2017 11:16 PM
2	Businesses do not belong in residential areas.	6/20/2017 9:05 PM
3	My first thought is that anything which affects parking for other residents would be a big negative.	6/18/2017 5:18 PM
4	.	6/12/2017 5:28 PM
5	Don't know	6/10/2017 2:17 PM
6	Depending on location of building. If building is located in commercial area then it would be okay to have a commercial business in the historic building.	6/10/2017 10:48 AM

Q6 Do you have any further comments or ideas for incentives to encourage designation of privately owned municipal historic resources?

1	Take a look at 8 Mill drive. Recently sold for top dollar quickly. Look at 11 Mill drive owner has said it is unsellable. We need a program that allows these homes to be well maintained homes and it starts by improving the neighbourhood culture not placing business 'neighbourhood voids' in the middle of them. If a building is crucial to the city, buy it; don't offer endless 'bits' of money which has not been shown to enhance community or positive views of historical homes.	6/22/2017 11:25 PM
2	Tax breaks (reduction of taxes), public recognition (if desired by residents), money to help with maintenance or with historically accurate renovations.	6/20/2017 9:06 PM
3	Should retain all historic buildings	6/19/2017 11:31 PM
4	This piece of the Policy would have to be given very careful and thorough thought as each application would have their own set of variables to consider. A "one size fits all" approach would most certainly create more problems than it would solve. However, a carefully crafted policy regarding incentives, designations, zoning issues, etc. could prove to be very helpful in preserving many historic resources.	6/18/2017 5:30 PM
5	Funds and professional advice to help maintain the property, property tax reductions.	6/18/2017 5:20 PM
6	Privately owned means just that. The city needs to stop creating taxpayer gouging programs so they feel like they have accomplished something. All you are accomplishing is to yet again WASTE money. How about putting your effort on bringing commercial businesses to St. Albert rather than focusing on frivolities that take yet more money from my food and basics budget. Do you have any concept of the fact that people are hurting and can not afford any more money grabs?	6/16/2017 9:19 AM
7	They should be added to a tour list and make space available on designated days. Interior should remain unchanged and open for public viewing	6/12/2017 4:29 PM
8	Reduction in taxes	6/10/2017 1:48 PM
9	If you lose it now you'll never get it back	6/10/2017 12:20 PM
10	Case by case	6/10/2017 11:38 AM
11	No assessment increase for taxation purposes.	6/10/2017 11:33 AM
12	Give grants to privately owned residents to restore the property.	6/10/2017 10:50 AM
13	If someone wants to demolish their property you can't stop them. Economy plays a role it's hard to prioritize this	6/10/2017 10:25 AM
