BACKGROUND AND DISCUSSION

The Government of Alberta is currently developing their 2022-23 Budget, which presents an opportunity for the City of St. Albert to engage with respective Ministries to promote the interests of the City, with the intent that these interests are reflected in the Budget. Typically, advocacy priorities are built after Council has developed a new Strategic Plan and the organization has developed a corresponding Corporate Business Plan. However, these timelines do not align with the Provincial Government's impending decision-making.

As such, an interim set of priorities has been developed to guide Council and Administration's intergovernmental engagement activities over the next several months, with the desired intent to leverage emerging opportunities and until such time as Council's new Strategic Plan and the organization's Corporate Business Plan is in place later in 2022.

STAKEHOLDER COMMUNICATIONS OR ENGAGEMENT

City Administration will be working with Council and the Office of the Mayor to engage with appropriate Government officials to promote the City's advocacy priorities. The "Advocacy Initiatives" webpage on the City of St. Albert's website will be updated upon Council acceptance of this report.
