## BACKGROUND:

Section 9.15 of the Land Use Bylaw 9/2005 is the Mixed Commercial (MC) Land Use District. The purpose of the District is as follows:

### ***Purpose***

*The purpose of the Mixed Commercial District is to:*

- (a) maintain generally continuous storefront retail development on the ground floor frontage adjoining the sidewalk, and to restrict those services which are not dependent on walk-in trade to locations away from ground floor frontage; and*
- (b) create a street front-oriented area of commercial and mixed commercial and high density residential uses.*

There are currently five parcels in the downtown districted as MC (*Attachment 1, 2*). Two of those parcels are oriented towards St. Albert Trail, and grade-separated from the Downtown, and may be more appropriately districted as Corridor Commercial (CC), as they have no direct access to the downtown. One is a city-owned parcel located on the eastern end of St. Thomas Street. Two are located on the west side of St. Anne Street south of St. Anne Promenade, and consist of the Grandin Medical Clinic property, and a surface parking lot on the corner of Sir Winston Churchill Ave and St. Anne St.

A list of Permitted and Discretionary uses in the MC and DT Districts is provided in *Attachment 3*.

The purposes of the MC District vs the DT District as set out in the Land Use Bylaw seem to be somewhat in alignment. For a more cohesive treatment of the downtown, Administration is supportive of re-districting the MC parcels to DT, while reviewing the permitted and discretionary uses to ensure that no legal non-conforming parcels are created.

If this Motion passes, Administration will bring forward a proposed Land Use Amending Bylaw to effect this redistricting.
