## BACKGROUND:

Section 8.37 of the Land Use Bylaw 9/2005 is the Downtown Residential Land Use District. The purpose of the District is as follows:

### ***Purpose***

*The purpose of the Downtown Residential District is to provide an area for a high density residential development in the downtown area.*

There are currently five parcels in the downtown districted as DR (*Attachment 1*). These parcels are all built out with multi-family, medium-density residential buildings. Four of the parcels front Sir Winston Churchill Ave, and one fronts St. Thomas & Perron Streets. The parcels operate as apartment style condominium housing. Apartment style buildings are currently a discretionary use in the Gateway Character Area, and not a permitted or discretionary use in the Perron Character Area, whereas dwelling units above ground storey non-residential are permitted uses in both districts, townhousing is discretionary in both districts, and mixed-use buildings are permitted in both districts. The purpose of the DT district is to:

*“...provide for a vibrant downtown that includes a mixture of employment opportunities, commercial, institutional, government and medium to high-density residential land uses with a focus on high-quality design...”*

A list of Permitted and Discretionary uses in the DR and DT Districts is provided in *Attachment 2*.

Given the small number of parcels, and the purpose of the DT District being to provide for a mixture of uses, including residential, Administration is supportive of re-districting these parcels. Minor amendments may be required to the DT district to minimize use impacts to the existing DR parcels. Redistricting the DR parcels to DT will allow for more cohesive treatment of the downtown.

If the Motion passes, Administration will bring forward a proposed Land Use Amending Bylaw to effect this redistricting,.
