BACKGROUND AND DISCUSSION

The Corporate Quarterly Report provides updates on major projects approved in the Corporate Business Plan and Budget or approved through a Council motion. These major projects are aligned with a specific goal and strategy under each of the Pillars of Sustainability in the City of St. Albert Strategic Plan.

Projects related to the City's core service delivery are not included in the report. This streamlined and focused approach provides clearer communication to Council on priority projects related to the Strategic Plan. Administrative and core service delivery information is reported to Council through other avenues, such as the Report on the Environment, Report on Culture, Report on Recreation, Report on the Social Master Plan, etc. Administration also provides Council Members with a monthly Administrative Progress Report.

The 2017 Corporate Quarterly Report - Second Quarter consists of three parts:

1. Executive Summary - provides a highlight of key project accomplishments that move the City of St. Albert Strategic Plan forward and a link to the online StTRACKER dashboard. (Attachment "2017 Quarterly Report, Executive Summary, Second Quarter").
2. City's Strategic Plan Projects Status Update - includes progress update on 65 projects that link to the City's Strategic Plan, and identifies the timeline, status and progress for each project. (Attachment "2017 Quarterly Report, City of St. Albert Strategic Plan Projects Status Update Report, Second Quarter").
3. Financial Summary - provides a quarterly update on the City's financial position. Included in this section of the report are three charts each for municipal and utility capital projects, showing: budget vs. forecast, project progress and project schedule. (Attachment "2017 Quarterly Report, Financial Summary, Second Quarter").

The online StTRACKER Performance Dashboard ([<https://stalbert.ca/cosa/admin/statracker/>](https://stalbert.ca/cosa/admin/statracker/)) provides updates on key performance indicators for the City where quarterly data is available. This tool is reviewed on a regular basis and will continue to evolve as the City's performance measurement program matures.
